Prof.Dr. Timur GÜRGAN
Scientific Director and Chairman

“
We've
helped thousand
of families
to fulfill their
dreams.
”

Balancing Concept

A professional team is here to understand you in this process and offers great support. Our team ensures patient-specific treatments to increase the success rate of getting pregnant. Yaşam IVF features breakthrough therapies alongside with mind/body programs, individual therapy and supplementary nutrition programs. Balancing Concept is an important step before starting to Assisted Reproductive Techniques.

Mind & Body Balance

Egg Balance

Sperm Balance

Choosing the Right IVF Center

Genetic Balance

Embryo Balance

Endometrium Balance

We provide most effective treatments for treating male and female infertility in our modern and technological 6 storey building.

A world class laboratory that guarantees most advanced technologies in IVF treatment.

Preimplantation Genetic Diagnosis (PGD) test can be performed before embryo transfer.

The success rate of Assisted Reproductive Techniques depends on number of factors including reproductive history, maternal age, cause of infertility and lifestyle factors.
